

The WSI to support the NEET group

How can the WorkSkills Initiative Support NEET?

The **Work Skills Initiative** (WSI) could help address the issue of young people being NEET (Not in Education, Employment, or Training) in several ways:

1. **Early Intervention:** WSI provides support to individuals before they become long-term unemployed, helping them develop skills and gain employment.
2. **Skills Development:** WSI offers tailored training and assessment tools to enhance employability and address skills gaps.
3. **Route to Sustainable Employment:** By providing a clear pathway to employment, WSI can help young people transition from welfare to work.
4. **Personalised Support:** WSI's approach can be adapted to individual needs, helping young people overcome specific barriers to education, employment, or training.

By providing targeted support and skills development, WSI can help reduce the number of young people who are NEET and improve their prospects for a successful future.
